

ANEW Precision Medicine

150 LOW-TOX PRODUCTS FOR A HEALTHIER HOME & LIFESTYLE

Physician-curated printable guide

How to use this guide. Products were selected for lower-exposure design, material choice, ingredient transparency, filtration/testing, or third-party evaluation. EWG labels apply only to the exact products/formulations identified; they are not brand-wide endorsements. For categories EWG does not evaluate, the rationale is based on the exposure-reduction purpose of the product. Formulations and certifications change, so re-check current product information before purchase.

AIR, MOLD & INDOOR ENVIRONMENT

1. AirDoctor

Why ANEW selected it: HEPA + activated-carbon filtration selected to reduce airborne particles, allergens and selected VOCs in frequently occupied indoor spaces.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

2. Austin Air

Why ANEW selected it: Selected for combining HEPA particle filtration with a substantial activated- carbon/zeolite media bed for particles, gases and odors.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

3. IQAir HealthPro

Why ANEW selected it: Selected for high-efficiency particle filtration intended to reduce fine particulate matter, allergens and other airborne particles.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

4. Air Oasis

Why ANEW selected it: Selected as a whole-room air-cleaning option for homes or offices.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

5. EC3 Mold Solution Spray

Why ANEW selected it: Selected as a convenient surface-cleaning product for mold-conscious environmental maintenance after the underlying moisture source is addressed.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

6. EC3 Mold Solution Concentrate

Why ANEW selected it: Selected as a concentrated cleaner for larger-area mold-conscious cleaning routines after moisture control and appropriate remediation.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

7. EC3 Mold Screening Plates

Why ANEW selected it: Included as an accessible screening tool that may help identify a need for further environmental investigation, not as a substitute for professional assessment.

Evidence/selection: Screening tool | Product / evidence link [\[open website\]](#)

8. Test Your Dust

Why ANEW selected it: Selected for dust-based environmental testing that can provide additional information about mold-related and other indoor exposures.

Evidence/selection: Environmental testing | Product / evidence link [\[open website\]](#)

9. Miele HEPA Vacuums

Why ANEW selected it: Selected for sealed, high-filtration vacuum designs that can reduce recirculation of household dust and allergens during cleaning.

Evidence/selection: Exposure-reduction selection | Product / evidence link [\[open website\]](#)

10. Santa Fe Dehumidifiers

Why ANEW selected it: Selected to control excessive indoor humidity to help reduce dampness and mold growth.

Evidence/selection: Humidity control | Product / evidence link [\[open website\]](#)
