

ANEW Precision Medicine

150 LOW-TOX PRODUCTS FOR A HEALTHIER HOME & LIFESTYLE

Physician-curated printable guide

How to use this guide. Products were selected for lower-exposure design, material choice, ingredient transparency, filtration/testing, or third-party evaluation. EWG labels apply only to the exact products/formulations identified; they are not brand-wide endorsements. For categories EWG does not evaluate, the rationale is based on the exposure-reduction purpose of the product. Formulations and certifications change, so re-check current product information before purchase.

FURNITURE, RUGS, FLOORING & PAINT

123. Medley Furniture

Why ANEW selected it: Selected for furniture emphasizing solid wood, natural materials and lower-emission options to reduce unnecessary synthetic-material exposure indoors.

Evidence/selection: Material/emissions selection | Product / evidence link [\[open website\]](#)

124. Cisco Home

Why ANEW selected it: Selected for furniture with natural-material options for households prioritizing lower- synthetic-material furnishings.

Evidence/selection: Material-based selection | Product / evidence link [\[open website\]](#)

125. Hook & Loom Rugs

Why ANEW selected it: Selected for cotton and wool rug options that can reduce reliance on conventional synthetic rugs and associated backing materials.

Evidence/selection: Material-based selection | Product / evidence link [\[open website\]](#)

126. Lorena Canals Washable Rugs

Why ANEW selected it: Selected for washable cotton/wool rug options, including children's designs, that emphasize natural fibers and practical cleaning.

Evidence/selection: Material-based selection | Product / evidence link [\[open website\]](#)

127. Forbo Marmoleum Flooring

Why ANEW selected it: Selected because linoleum provides an alternative to conventional vinyl flooring for households seeking to reduce PVC use.

Evidence/selection: Material-based selection | Product / evidence link [\[open website\]](#)

128. ECOS Paints

Why ANEW selected it: Selected for lower-VOC-focused interior paint options intended to reduce indoor solvent and odor burden during renovation.

Evidence/selection: Lower-emission selection | Product / evidence link [\[open website\]](#)

129. AFM Safecoat

Why ANEW selected it: Selected for paints, sealers and coatings commonly considered by chemically sensitive households seeking lower-emission building products.

Evidence/selection: Lower-emission selection | Product / evidence link [\[open website\]](#)

130. Benjamin Moore Eco Spec

Why ANEW selected it: Selected as a zero-VOC-oriented interior paint line from a widely available manufacturer for lower-emission renovation projects.

Evidence/selection: Lower-emission selection | Product / evidence link [\[open website\]](#)
